

Free Developmental Check-Ups for Kindergarten Students, Children ages 3-5

Palliser Regional Schools offers free developmental screenings that provide important information to parents and educators.

The check-ups involve you and your child going through fun activities that demonstrate key skills. When you leave, you'll know how your child's communication, gross motor, fine motor, problem-solving, and personal-social skills are developing.

The check-up can help ensure your child gets the support they need and by visiting your local school in a fun atmosphere in advance, it may reduce anxiety about going to school later. You can access educational experts to assess your child's strengths and areas of growth.

Best of all, it's free.

See the list below for scheduled check-ups at specific schools. Call the school for further details, including times:
