ATHLETE REVIEW

Note & Introduction:  
The purpose of this exercise is to perform a comprehensive review of the given athlete and their sport program(s). As thorough an assessment as possible of the elements that contribute to each athlete's competitive performance is the objective.  
This exercise should be undertaken with an open mind as possible and with the notion that this is an opportunity for "free speech" without consequence.  
The comments will be used to examine the training and competition performance of each athlete, together with supporting materials, with a view to establishing an objective assessment of current situation and a potential future pathway.  
  
Ideally, the review should be as compared with what is understood to be current "World Best" standards (Development and/or Entry).
